**Flag:** Follow up

Hi All,

Thanks Dan for making introductions.

I'd be happy to meet to discuss the work with bees around ENREC and AltEn. I'll be out of the state for conferences the first few weeks of January so

I've attached a scheduling link to see if there's a time to connect either before or after the holiday break. If we can fill this scheduling out by this Friday then I can confirm a time and send a zoom link out. If those dates don't work then please suggest some alternative dates and I will likely be able to zoom even if I'm travelling.

EPA research group discussion - When2meet

Thanks,

Judy Wu-Smart

Hi Judy,

Jeff Minucci and Tom Purucker (cc'd on this email) are the EPA scientists interested in studying the AltEN ecological effects we mentioned at our meeting a couple of weeks ago.

I suggest that you set a time to discuss the work you have been doing at ENREC and around the AltEN facility to measure effects to bee populations.

Let me know how I can help. Thanks! -Dan

Non-NU Email

---

Dan and Shannon,  
Jeff and Tom are quite keen to get in touch with Judy to discuss bee research at the AltEn site. Would you mind making that connection?
